

**Message from the President:**

*Thank you for your interest in The Analysis Corporation (TAC.) We are proud that our company is helping safeguard the national security of the United States and its allies.*

*TAC has played an increasingly important role in recent years in the vital areas of intelligence operations and analysis, information technology and management consulting.*

*I joined TAC as President and CEO in November 2005, and was honored to be part of a company with such an important mission. As the former head of the National Counterterrorism Center and its predecessor Terrorism Threat Integration Center, I know that the capabilities that TAC has to offer are essential to confront the national security challenges of the 21<sup>st</sup> Century. The seriousness of the threats facing American interests, and those of our allies, demand the best and brightest be involved in the effort to protect and secure our future.*

*For almost two decades, TAC has provided invaluable information technology and analytic support to U.S. Government departments and agencies responsible for keeping the nation safe from harm. Since September 11, 2001, the expertise and innovation of TAC's workforce have been particularly instrumental in denying terrorists access to the United States, through a national watchlisting effort which is founded upon and supported by TAC's technical and analytic know-how. The Analysis Corporation (TAC) is proud to be an integral part of the strong national security partnership that exists between the U.S. Government, its allies, and the private sector.*

*TAC is an exciting company with a vibrant, creative workforce and a very bright future. Whether you are a prospective employee, an interested partner, or a potential client, I strongly encourage you to learn more about TAC as well as to explore the opportunities that lie ahead.*
